

John Adams Institute for Accelerator Science Lecture Series

Tuesday 9th September 2014 at 10:00am
Fisher Room, Denys Wilkinson Building

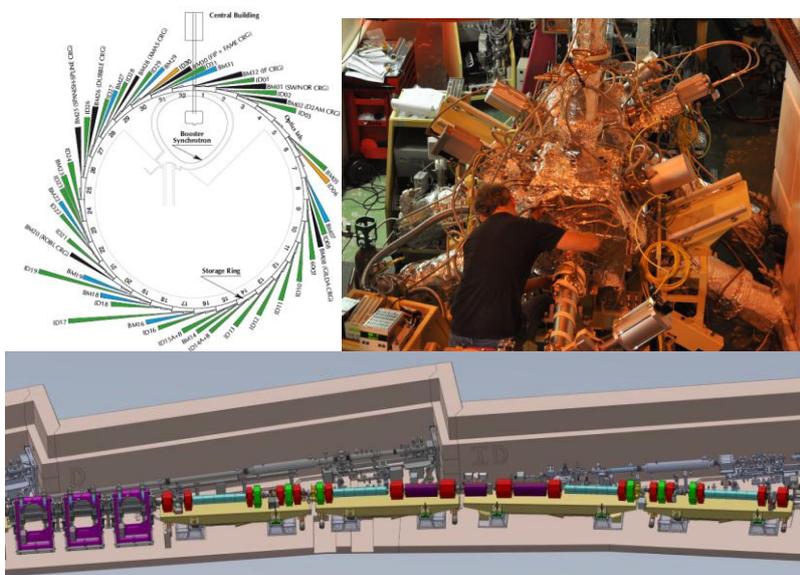

ESRF Operation Status Report & Phase I and II Accelerator Upgrade Programme

The lecture will be delivered by

**Pantaleo Raimondi,
European Synchrotron Radiation Facility (ESRF), Grenoble**

Abstract:

A review of User Operation and the Phase I Upgrade programme will be given. Also to be presented is the Accelerator Phase II Upgrade Project which aims at reducing the Storage Ring Horizontal Emittance by a factor of 30, with a corresponding increase in the brightness of the X-ray source.
